TEAM 2

What has been done:

- **Created Trello and filled it with sprint1 tasks and product backlog**
- **Created Project vision and plan**
- **Assigned members tasks for the project and discussed what technologies we would use**
- **Developed UI Blueprint using Figma**
- **Created GitHub repo**

1. **Obstacles Encountered:**
   a. Obstacles: Moodle was hard to deal with and lecture material for the sprint and scrum master where hard to find and not all in one place

Trello Sprint1
